Library and tools for AFesta.tv

## **FEATURES**

- Login to Afesta/LPEG API and register as a new player/client
- Re-use existing 4D Media Player installation + login credentials when available (Windows only)
- Download Afesta videos via CLI (requires valid account and appropriate purchases/permissions)
- Download and extract interlocking goods scripts from Afesta vcz archives (supports extracting scripts in both Vorze CSV and Funscript formats)

Note: 8K downloads are not currently supported, as 4D Media Player only downloads the 4K version for 8K videos. Interlocking goods vcz download and extraction are supported for 8K videos downloaded via the Afesta website.

## REQUIREMENTS

- Python 3.9+
- Valid Afesta account

## INSTALLATION

You can install *Afesta Tools* via `pip` from `PyPI`:

```
$ pip install afesta-tools
```

## USAGE

Login to Afesta via CLI (not required on Windows if 4D Media Player is installed and logged into Afesta):

```
$ afesta login
A festa username: username
A festa password:
```

List purchased videos which can be downloaded:

```
$ afesta list
PRVR-050-Takumi: 4KNo. 1...
3DSVR-1393: 8KHQ8K...
...

$ afesta list -d
PRVR-050-Takumi:
  4KNo. 1SEX
  Parts: 3
  Actresses:
  Genres:
  Release date: 01/29/21 10:00:00 JST
  Duration: 1:16:26
...

$ afesta list -l en
PRVR-050-Takumi: [4K Takumi] Hardcore Cre...
3DSVR-1393: 8KHQ [8K Liberation of ...
...

$ afesta list -d -l en
PRVR-050-Takumi:
  [4K Takumi] Hardcore Creampie with the Best Girl in the Brothel, starring Remu Suzumori
  Parts: 3
  Actresses: Remu Suzumori
  Genres: AV Actresses
  Release date: 01/29/21 10:00:00 JST
  Duration: 1:16:26
...
```

Download videos:

```
$ afesta dl PRVR-050
Downloading PRVR-050-Takumi: 4KNo. 1... (3 parts): 0%|          | 97.7M/19.6G [00:15
<50:15, 6.48MB/s]

$ tree .
.
├── PRVR-050-Takumi-R1_sbs.mp4
├── PRVR-050-Takumi-R2_sbs.mp4
└── PRVR-050-Takumi-R3_sbs.mp4
```

Download vcz archives for Afesta video files:

```
$ afesta dl-vcz PRVR-050-Takumi-*.mp4
100%| 430k/430k [00:00<00:00, 740kB/s]
100%| 509k/509k [00:00<00:00, 852kB/s]
100%| 454k/454k [00:00<00:00, 752kB/s]

## CONTRIBUTING

Contributions are very welcome. To learn more, see the [Contributor Guide](#).

## LICENSE

Distributed under the terms of the [MIT license](#), *Afesta Tools* is free and open source software.

## ISSUES

If you encounter any problems, please [file an issue](#) along with a detailed description.

## CREDITS

This project was generated from [@cjolowicz's Hypermodern Python Cookiecutter](#) template.

## 8.1 Usage

### 8.1.1 afesta

Afesta Tools.

```
afesta [OPTIONS] COMMAND [ARGS]...
```

#### Options

##### **--version**

Show the version and exit.

#### **dl**

Download an afesta video.

Requires an account with permissions to download the video (either via standalone purchase or monthly subscription DL benefits).

If 4D Media Player is installed and the current user is logged in via the player, the existing 4D Media Player credentials will be used. Otherwise, the 'afesta login' command must be run before downloading.

```
afesta dl [OPTIONS] [CODE_OR_FID]...
```

#### Options

**-q, --quality <quality>**

##### **Options**

h264 | h265

**-c, --code**

Download explicit purchase code(s) instead of video FID (i.e. cc123...\_0000)

**-l, --lang** <lang>

**Options**

jp | en

### Arguments

**CODE\_OR\_FID**

Optional argument(s)

### dl-vcz

Download vcz files for an afesta video.

Requires an account with permissions to download the video (either via standalone purchase or monthly subscription DL benefits).

If 4D Media Player is installed and the current user is logged in via the player, the existing 4D Media Player credentials will be used. Otherwise, the ‘afesta login’ command must be run before downloading.

```
afesta dl-vcz [OPTIONS] [VIDEO_ID]...
```

### Arguments

**VIDEO\_ID**

Optional argument(s)

### extract-script

Extract interlocking goods script files from a VCZ file.

```
afesta extract-script [OPTIONS] [FILENAME]...
```

### Options

**--format** <fmt>

Script format (defaults to CSV). -format can be specified multiple times to extract more than one format.

**Options**

csv | funscript | vcsx

## Arguments

### FILENAME

Optional argument(s)

### list

List available afesta video downloads.

Requires an account with permissions to download the video (either via standalone purchase or monthly subscription DL benefits).

If 4D Media Player is installed and the current user is logged in via the player, the existing 4D Media Player credentials will be used. Otherwise, the 'afesta login' command must be run before downloading.

```
afesta list [OPTIONS]
```

## Options

**-l, --lang <lang>**

**Options**

jp | en

**-d, --detail**

List detailed video information.

**--tv**

List AfestaTV/2D videos (defaults to VR).

### login

Login to Afesta and register afesta-tools as a new player.

If username and/or password are not specified, they will be prompted via the command-line.

Login is not required if 4D Media Player is installed and the current user has logged into 4D Media Player and registered it with an Afesta account.

Note that afesta-tools only stores username and API tokens (password will not be saved to disk).

```
afesta login [OPTIONS]
```

## Options

**-u, --username <username>**

Afesta username.

**-p, --password <password>**

Afesta password.

**-f, --force**

Overwrite existing credentials.

## 8.2 Reference

### 8.2.1 afesta\_tools

Afesta Tools.

## 8.3 Contributor Guide

Thank you for your interest in improving this project. This project is open-source under the [MIT license](#) and welcomes contributions in the form of bug reports, feature requests, and pull requests.

Here is a list of important resources for contributors:

- [Source Code](#)
- [Documentation](#)
- [Issue Tracker](#)
- [Code of Conduct](#)

### 8.3.1 How to report a bug

Report bugs on the [Issue Tracker](#).

When filing an issue, make sure to answer these questions:

- Which operating system and Python version are you using?
- Which version of this project are you using?
- What did you do?
- What did you expect to see?
- What did you see instead?

The best way to get your bug fixed is to provide a test case, and/or steps to reproduce the issue.

### 8.3.2 How to request a feature

Request features on the [Issue Tracker](#).

### 8.3.3 How to set up your development environment

You need Python 3.7+ and the following tools:

- [Poetry](#)
- [Nox](#)
- [nox-poetry](#)

Install the package with development requirements:

```
$ poetry install
```

You can now run an interactive Python session, or the command-line interface:

```
$ poetry run python
$ poetry run afesta-tools
```

### 8.3.4 How to test the project

Run the full test suite:

```
$ nox
```

List the available Nox sessions:

```
$ nox --list-sessions
```

You can also run a specific Nox session. For example, invoke the unit test suite like this:

```
$ nox --session=tests
```

Unit tests are located in the `tests` directory, and are written using the [pytest](#) testing framework.

### 8.3.5 How to submit changes

Open a [pull request](#) to submit changes to this project.

Your pull request needs to meet the following guidelines for acceptance:

- The Nox test suite must pass without errors and warnings.
- Include unit tests. This project maintains 100% code coverage.
- If your changes add functionality, update the documentation accordingly.

Feel free to submit early, though—we can always iterate on this.

To run linting and code formatting checks before committing your change, you can install pre-commit as a Git hook by running the following command:

```
$ nox --session=pre-commit -- install
```

It is recommended to open an issue before starting work on anything. This will allow a chance to talk it over with the owners and validate your approach.

## 8.4 Contributor Covenant Code of Conduct

### 8.4.1 Our Pledge

We as members, contributors, and leaders pledge to make participation in our community a harassment-free experience for everyone, regardless of age, body size, visible or invisible disability, ethnicity, sex characteristics, gender identity and expression, level of experience, education, socio-economic status, nationality, personal appearance, race, religion, or sexual identity and orientation.

We pledge to act and interact in ways that contribute to an open, welcoming, diverse, inclusive, and healthy community.

### 8.4.2 Our Standards

Examples of behavior that contributes to a positive environment for our community include:

- Demonstrating empathy and kindness toward other people
- Being respectful of differing opinions, viewpoints, and experiences
- Giving and gracefully accepting constructive feedback
- Accepting responsibility and apologizing to those affected by our mistakes, and learning from the experience
- Focusing on what is best not just for us as individuals, but for the overall community

Examples of unacceptable behavior include:

- The use of sexualized language or imagery, and sexual attention or advances of any kind
- Trolling, insulting or derogatory comments, and personal or political attacks
- Public or private harassment
- Publishing others' private information, such as a physical or email address, without their explicit permission
- Other conduct which could reasonably be considered inappropriate in a professional setting

### 8.4.3 Enforcement Responsibilities

Community leaders are responsible for clarifying and enforcing our standards of acceptable behavior and will take appropriate and fair corrective action in response to any behavior that they deem inappropriate, threatening, offensive, or harmful.

Community leaders have the right and responsibility to remove, edit, or reject comments, commits, code, wiki edits, issues, and other contributions that are not aligned to this Code of Conduct, and will communicate reasons for moderation decisions when appropriate.

### 8.4.4 Scope

This Code of Conduct applies within all community spaces, and also applies when an individual is officially representing the community in public spaces. Examples of representing our community include using an official e-mail address, posting via an official social media account, or acting as an appointed representative at an online or offline event.

### 8.4.5 Enforcement

Instances of abusive, harassing, or otherwise unacceptable behavior may be reported to the community leaders responsible for enforcement at [bhrevol@gmail.com](mailto:bhrevol@gmail.com). All complaints will be reviewed and investigated promptly and fairly.

All community leaders are obligated to respect the privacy and security of the reporter of any incident.

### 8.4.6 Enforcement Guidelines

Community leaders will follow these Community Impact Guidelines in determining the consequences for any action they deem in violation of this Code of Conduct:

#### 1. Correction

**Community Impact:** Use of inappropriate language or other behavior deemed unprofessional or unwelcome in the community.

**Consequence:** A private, written warning from community leaders, providing clarity around the nature of the violation and an explanation of why the behavior was inappropriate. A public apology may be requested.

#### 2. Warning

**Community Impact:** A violation through a single incident or series of actions.

**Consequence:** A warning with consequences for continued behavior. No interaction with the people involved, including unsolicited interaction with those enforcing the Code of Conduct, for a specified period of time. This includes avoiding interactions in community spaces as well as external channels like social media. Violating these terms may lead to a temporary or permanent ban.

#### 3. Temporary Ban

**Community Impact:** A serious violation of community standards, including sustained inappropriate behavior.

**Consequence:** A temporary ban from any sort of interaction or public communication with the community for a specified period of time. No public or private interaction with the people involved, including unsolicited interaction with those enforcing the Code of Conduct, is allowed during this period. Violating these terms may lead to a permanent ban.

#### 4. Permanent Ban

**Community Impact:** Demonstrating a pattern of violation of community standards, including sustained inappropriate behavior, harassment of an individual, or aggression toward or disparagement of classes of individuals.

**Consequence:** A permanent ban from any sort of public interaction within the community.

### 8.4.7 Attribution

This Code of Conduct is adapted from the Contributor Covenant, version 2.0, available at [https://www.contributor-covenant.org/version/2/0/code\\_of\\_conduct/](https://www.contributor-covenant.org/version/2/0/code_of_conduct/).

Community Impact Guidelines were inspired by Mozilla's code of conduct enforcement ladder.

For answers to common questions about this code of conduct, see the FAQ at <https://www.contributor-covenant.org/faq>. Translations are available at <https://www.contributor-covenant.org/translations>.
